THE OUTER RING WILL CONTAIN THE CARTS WHILE THE RAW PRODUCT IS EITHER FORMED / COOKED, PREDUST BATTER BREADED, FRIED, FROZEN AND PACKAGED.

THE CART WILL BE PULLED ALONG ON A TRACK OR ON A MAGNETIC FLOATING BED BY AN ATTRACTING MAGNET ON THE INSIDE OF THE DRIVE CIRCLE. THIS WILL BE DONE IN A WAY THAT THE ARM CAN BE MADE TO MAKE THE CART TO ROTATE, BOUNCE UP AND DOWN, BUT IN ALL CASES MOVE AROUND THE PRODUCT PATH. AT 350°-359° LOCATION THE CART CAN BE MADE TO DUMP THE PRODUCT TO THE NEXT LEVEL OR PROCESS.
